

MCUC on your Mac

Connect Twingate first. Then open MCUC.

1 Twingate¹

[Download Twingate](#)

Install it, then open it. Enter this network name:

NETWORK NAME

mcuc

Only these 4 letters.

Then click Join Network.

Sign in with your MedCare Okta account.

Approve the VPN and system-extension prompts.

✓ **Wait until Twingate says Connected.**

2 Windows App²

[Get Windows App](#)

Install + open. In the top-right, click

+ → **Add PC**

PC name

10.2.10.75

Friendly name

MCUC

Click Add, then double-click MCUC to connect.

Enter your Windows login when asked.

EVERY TIME

Twingate Connected → **Open MCUC**
